

To whom it may concern,I would like to express my dissatisfaction with the NAB's petition 04-160, which represents another attempt by the National Association of Broadcasters (NAB) to restrict satellite radio from offering traffic and weather and other valuable services to me. I pay to listen to XM radio because I have become very dissatisfied with current FM and AM content. I believe that if the other formats (FM and AM) are concerned that they are losing business they should do something about themselves instead of attacking other businesses to bully their way back into the market. In summary, satellite radio provides variety and quality that are not available elsewhere. I pay for these services and it should not be up to the National Association of Broadcasters to dictate what I am permitted to hear. I respectfully urge the FCC to reject the NAB's petition 04-160 and to support XM's ability to provide the kind of programming that I demand and deserve.

Sincerely,

Brian Desnoyer
